</html>
```

Output:

Open web page `htmldemoForm.html` in the browser and will get the screen as shown below

Screen 1 :htmldemoForm.html

The screenshot shows a web browser window with a single tab titled "Simple HTML Form". The address bar displays "localhost:8080/htmldemoForm.html". The form itself is enclosed in a light gray box and contains the following elements:

- A label "Name" above a text input field containing the text "Name".
- A label "Email" above a text input field containing the text "Enter Email".
- A label "Birthdate" above a text input field containing the text "dd-mm-yyyy".
- A "Submit" button.
- Below the form, the text "Name :abc" and "Email:abc@abc.com" is displayed.
